ABOUT US

DK Fiberglass Industry, established in 2015, is a Leading manufacturer and trader of high-quality Glass epoxy sheets, G10 coil support and induction-furnace , control panels, and electricals and electronics related all equipments our product range includes induction melting furnace, Induction furnace parts and induction furnace control panels, all designed and tested to meet international quality standards. we cater to diverse industrial applications, offering customized solutions to meet specific requirements. our product are renowned for their durability, easy installation, low maintenance and corrosion resistance.

DK Fiberglass Industry is dedicated to meet the growing demand for innovative, efficient and cost effective custom build product in the metalworking industry quality assurance is the core of our operations, ensuring customer satisfaction and loyalty. supported by reliable logistics partners, we are committed to delivering products on time and maintaining year-round inventory to meet our customer's needs.

MORDERN INFRASTRUCTURL FACILITY

DK Fiberglass Industry has established a state-of-the-art facility with advanced machinery, our operations are divided into production, storage, quality-checking, packaging and labeling units managed by industry experts to ensure high standards.

COMPANY PROFILE

DK Fiberglass Industry specializes in manufacturing, supplying, and globally distributing a wide range of FRP Sheets and Components, including Electrical Insulation products. We are committed to excellence, using premium raw materials to ensure optimal performance and durability.

Our sophisticated infrastructure is strategically divided into specialized sections for manufacturing, quality control, administration, logistics, and packaging. Each division is managed by experienced professionals to ensure efficient operations.

We implement stringent quality control measures throughout our production process. Our dedicated quality controllers meticulously inspect every product to maintain impeccable quality standards.

OUR CLIENTS

As a client-focused firm, DK Fiberglass Industry is committed to achieving optimum client satisfaction through quality, timely delivery, and ethical business practices. Our insulation components are rigorously tested to meet international quality standards. Our state-of-the-art manufacturing unit, operated by skilled professionals, ensures on-time delivery. Our transparent business dealings and client-centric approach have earned us a trusted and global client base.

Why Choose Us :

- Quality Assurance: Our products are reliable and durable, meeting evolving client needs.*
 - Expertise: With years of experience, we specialize in FRP solutions for electrical insulation and more.*
 - Customization: We provide tailored solutions to meet specific requirements.*
 - Global Reach: Our products are available year-round, serving global demand.*
- Our skilled team—comprising engineers, designers, and customer service professionals—is dedicated to excellence. We invest in continuous training to stay ahead in industry advancements.*

PRODUCT DETAILS

Induction Furnace Spare Parts

Induction Furnace Assembly
 Induction Melting Coil
 Components-Control Circuit
 Card For Panel
 Magnetic Yoke
 Water Cooled Cables
 Coil Insulation Material

Continue Caster Machine

Cylinder Qc-1 / Qc-2
 Dummy Bar Bolt
 Eye Bolt
 Dummy Bar Bolt
 Hydraulic Hose Pipe
 Slide Gate Assembly System
 Nozzle Holder Qc-1 / Qc-2

Refractories Spare

Slide Gate Plates
 Collector Nozzles
 Ladle Nozzles
 Porous Plugs
 Tundish Nozzles
 Well Blocks
 Tundish Well Block
